We created a platform for doers, thinkers, executers, misfits, and mad film makers who go out of the boundaries to create a fresh, creative, and new content to entertain, to bring awareness on social concerns to the world.

The main aim of this film festival is to help young and talented filmmakers to showcase their story to the world. Raw talents from Theatre, Writing, Acting, and also in Direction, can showcase their talent, GBIFF will play a very important role in creating new platforms and for networking with different film amkers from around the world.

Festival Highlight: Panel Discussion were Film Makers and audience will be mesmerised by the presence of veteran film directors, technicians and actors, who will be sharing thier journey & will be sharing their insights on film making.
